# ABOUT PUDGY PANDAS

Pudgy Pandas represents ZenFi – the discipline of calm conviction in volatile markets. The project is designed to showcase how Asia leads cultural and financial trends that the world follows.

**Our goal is simple:** create a generational meme brand with real-world impact. Panda conservation sits at the heart of our roadmap, ensuring that success in markets translates into tangible outcomes in nature.

# PANDA CONSERVATION

We recognize the importance of protecting endangered species. That's why Pudgy Pandas has committed a significant share of its tokenomics to conservation and the Panda Birth Initiative.

We encourage everyone, whether holders or visitors, to learn more and support existing organizations already doing vital work:

- **WWF PANDA PROGRAMS  
(WORLD WILDLIFE FUND)**
- **CHENGDU RESEARCH BASE OF GIANT  
PANDA BREEDING**
- **CHINA CONSERVATION & RESEARCH  
CENTER FOR THE GIANT PANDA**

These organizations welcome direct donations, and Pudgy Pandas will amplify their impact through transparent funding.
